Mr. DuPont stated that when the bill was received he spoke with Mr. Weiner to be sure it was all encompassing.

He indicated that he would be voting no on their bill. • **EXECUTIVE SESSION - None**

Before moving onto the Public Portion Councilwoman Novak brought up that the Open Space Committee back in 2014 made a recommendation that they purchase property that abuts the Laurel Park baseball field and there were some issues, but nothing more was done. She said that it has come to her attention that this property is now being looked at by a developer. **Councilwoman Novak made a motion** to have the legal issues investigated and move forward with the purchase of this property through Open Space funds.

The Mayor asked the engineer if these were the properties where some property owners extended their back yards. The engineer stated that the borough was looking at purchasing this property through Green Acres Funds, but Green Acres found that there were some issues because there were some encroachments of resident's back yards onto that property. He said that there was some discussion on the council level to get those issues resolved before we pursue the purchase. Mayor thought that at the time they discussed approaching the property owners and ask if they would like to

purchase the property to extend theirs. The engineer stated that he believed that at the time the borough went back to Mr. Kolodziej and said that in order to use the Green Acres funds he (Mr. Kolodziej) would have to resolve the encroachment issues. Mayor asked if the encroachment was resolved. The engineer said that surveys were performed and he would forward the maps where the encroachments are and the Borough Attorney stated that he would meet with the engineer before the next meeting. Councilwoman Novak said that if he does not sell to us he would sell to a developer. Mayor thought the property was landlocked. Mr. Cornell said that one has frontage on Cheesequake Road between the houses and the park, and thought one lot would be buildable. Councilwoman Novak stated that she has a motion on the floor. Councilman McGill seconded the motion. Mayor asked what the motion was.

The Borough Attorney clarified for the record that the motion is to have the Borough Attorney and Borough Engineer to move forward and do their due diligence on the purchase of this property through Open Space Funding. Councilman McGill stated that he seconded the motion.
