

Cat License Application

All 2025 Cat Licenses Expire June 30, 2026

All Cats Over 7 Months of Age are Required to Be Licensed **Annually**

State Law R.S. 4:19-152A requires that evidence of Rabies Vaccination **EXPIRATION DATE** (no tags please) be provided by the owner before a license can be issued. If the Cat is altered, proof of spaying/neutering is required. **NO CALLS** will be made to veterinarian's offices, as this is time consuming on our part, as well as the vet's. It is the owner's responsibility to submit all correct information, even if previously licensed.

2026 Cat Licenses **WILL NOT** be issued if Rabies Inoculations expire on or before October 31, 2026. In these cases, the cat must be re-vaccinated in order to be eligible for a 2026 license. Please consult with your vet on overlapping shots if your pet's Rabies expires before **October 31, 2026**.
