Council decided to look at the matter during next year’s Budget discussions.
 - E) Committee Reports:
 - 1) Councilman Dalina said that he took a ride down Pershing Avenue and said that he understands the concerns of the citizens and stated that the parking restriction should remain and should be enforced.

Mayor said that the matter is still under discussion, so his comments are noted in the Borough records.

Councilwoman Novak said that they, as a Council, have to decide which side of the street. Discussion followed.

Council President Buchanan asked if he could have Fire Chief/Fire Marshall come forward and give his opinion on that street.

Kevin Krushinski came forward and said that after the initial visit to the site his findings were that it would be problematic to get emergency equipment down that street in the event of a house fire or someone in need of medical attention. He explained that width of the roadway as opposed to the size of the equipment. He stated that they would be unable to safely pass down the street with vehicles on both sides.

Mayor stated that for 60 years it has worked and that Sayreville has many other streets with the same problem.

Discussion of the Borough's liability if the Borough does not act.

Council President said that we adopted an ordinance. The Council had a sub-committee formed to see what side the residents would prefer the parking restriction on. There was a recommendation from the new Sergeant of Traffic Safety stating that he recommends it coming from Washington Road on the natural right hand side coming down from Pershing from Washington Rd. So now it is up to the Council to leave the Ordinance as is or take the advice of the new Sergeant of Traffic and move it to the other side of the road.

Councilwoman Novak said that the Council would have to make this decision to leave it or change it.

Councilman Dalina said he makes a motion to keep the ordinance as it is and to enforce it.

Councilman Enriquez seconded that motion.

Mr. DuPont said that there is an existing ordinance, so all you are saying is that you are not changing it you want it enforced.

Councilwoman Novak said that there was a pause on enforcing the ordinance until after the committee met and discussed the matter.

Mr. DuPont said there is no action to be taken. You are only making policy consideration stating that you want enforcement of the existing ordinance. No action to bring back the ordinance that has been tabled. You are just directing the police chief to take the existing Ordinance on the books and have it enforced. No change.

Councilwoman Novak asked if a vote was necessary on the motion. The Borough Attorney said that you could vote on it as it is a policy consideration that you wish to have the ordinance enforced.

Roll Call: Councilpersons Dalina, Buchanan, Enriquez, Kilpatrick, McGill, Novak, all Ayes.

The Borough Attorney stated that he does not think that can be directly done. But perhaps there can be a policy directed to the Planning Board to ensure the 24 hours does not occur. Council President was concerned that if it does not happen as an ordinance that it cannot happen. The Borough Attorney said that he would speak with the Planner.

At this time Mayor O'Brien opened the meeting up to the public for questions or comments on any and all matters.

Those appearing:

-Steve Melanaski, 28 Scarlett Drive

Asked how the committee that was formed at the last meeting regarding Fulton's Landing was doing with their review.

Mayor said that they have not sent an update on this, nor does he expect one.

Councilman Dalina asked who was serving on this committee. Mayor said that Mr. Rittenhouse could get him this information. Councilman Dalina asked if he could also get a list of matters discussed.

- Mike D'Addio, Zaleski Drive

Chairman of Sayreville Economic & Redevelopment Agency commented with regard to the 24 hour truck traffic ordinance. He said that the Steel Mill or Sabert Co. does not have this restriction and asked why they would be discriminating against these warehouses that are not even built.

Council President Buchanan said that with regards to the truck traffic and if it is going to be a distribution center very close to several different resident developments that the 24 hour truck traffic would not be good for the residents.

Mr. D'Addio agreed, but these restrictions were not placed against the other two companies.

Council President Buchanan said that if we have the ability to put the restrictions on this company now he would like to see it done. His concern are the residents.

Mr. D'Addio continued to comment on the 24 hour. He said that there will not be a massive amount of trucks at one time. He

commented on the size of the property and that nothing has been discussed yet where the warehouses would be going. He said to be careful on placing the restriction on this company.

- Steve Melanaski, 28 Scarlett Drive, Parlin
Concerned that we need to get what we can in the ordinance now to avoid the truck traffic issue.

The Borough Attorney said that everyone appreciates the 24 hour truck traffic matter but everyone needs to know that they have an existing preapproved plan, that the Planning Board adopted allowing three warehouses with 24 hour truck traffic.

Councilman Dalina again asked were the people were on this committee.

Mayor responded that he asked Lisa Cohose to put together a committee of 9 people of affected residents to meet with the Mocco people and as far as he knows she has.

- Ruth Ann Mahoney, 2 Gerard Place, Parlin
She said that the warehouse issue has her most upset. She said that as citizens they are trying to prevent what can and can't be done. She said that these warehouses do not belong in the middle of Sayreville. She expressed concerns over the trucks. She said that the council needs to be concerned about the residents not the warehouses.

No further appearances.

Council President moved the Public Portion be closed. Seconded by Councilwoman Novak.
